4. A repair kit.

1. Shampoo basin

2. Water pouch kit

3. A plastic pipe and string

Drainage plug

5. Place shampoo basin under patient's neck area, adjust for comfort when necessary.

Application illustration

## FEATURES

1. A 20cm deep shampoo basin with dual tubing for sturdiness and comfort.
2. It comes with a drainage plug with hose for ease of discharging soiled water during or after use.
3. A separate water pouch for easy water transport where water source may not be conveniently accessible. It also comes with a shower head and an adjustable clip for ease of water flow control.

## SETUP INSTRUCTION

1. Inflate the shampoo basin either by mouth or with air pump (not included).  
**NOTE:** the air valve has a one-way valve inside to help to prevent air from leaking out. To inflate, squeeze air valve by its neck to help to open the one-way valve inside.
2. Place the shampoo basin on a flat and semi-rigid surface for better use.
3. Place the drainage hose to a water bucket (not included).  
**NOTE:** water bucket must be placed lower than the shampoo basin to ensure soiled water flows downwards.
4. Unplug the drainage plug for water drainage while in use.
