

ENGLISH
TRIPODS - QUADRIPODS

All serious accidents concerning the medical device supplied by us must be reported to the manufacturer and competent authority of the member state where your registered office is located.

Our 3/4-leg cane is designed to support people with movement difficulty. It has a light weight structure, ergonomic handle and non-slip tips; it facilitates the upright position and the path, widening the base of support and providing greater stability and balance. To ensure stability of the patient will have to take short steps.

ATTENTION: use caution on downhill floor, stairs, wet or slippery surfaces. Not indicated for patients with serious motor pathology. Check the status periodically. Keep it away from children to avoid any possible risks. Before use verify that the products are not damaged, that they are adjusted correctly and that the anti-skid rubber tips are not worn. **Maximum load capacity 100 kg.**
