Please read this manual with special care, before installing and operating the device.

**ATTENTION:** this symbol indicates the manual's sections that the user must fully understand and follow in order to avoid any potential damage to people and also to equipment itself.

## 1. INTRODUCTION

---

Dear Customer,

Your choice of our appliance means, for our Company, your particular recognition of the care of our designers, in the achievement of an ergonomic and reliable product, with every pleasant style, as well.

We would thank you in advance for your choice and we are at your complete disposal for everything you need.

## 2. IMPORTANT ADVICE NOTE

**You are kindly requested to pay particular attention to this manual, before using the appliance, as it contains important recommendations on the correct installation, use and maintenance of the product.**

**As a matter of fact it is the shortest way of communication between the Supplier and the end User (p. 7.2.3 UNI EN ISO 13485:2012)**

Have a good work!

## 3. PRODUCT DESTINATION

---

KART is a family of trolleys specially designed for health operators, care of patients in the various hospital departments and clinics; the trolleys are also useful for stowage and transport of medicines, material for dressings, consumable materials, heavy medical equipment and medical file folder.

**This appliance has to be used only for the purpose for which it was designed. All other uses must be considered dangerous.**

**The manufacturer cannot be considered responsible for damages caused by an incorrect use of the product or if the product is not used according to the indications of the present manual.**

In case of any doubt on the safety of the device, do not use it, and ask to a qualified person.

## 4. GENERAL WARNING

After removing the packaging, check that the product has not been damaged.

In case of doubt, do not attempt to repair or use the KART, but seek advice from the supplier or from a suitably qualified person.

Do not expose the appliance to adverse elements (sun, rain, etc.).

Don't allow the appliance to be used by untrained people or children.

## 5. PACKAGING HANDLING

After taking away the packaging, do not leave the different elements (carton boxes, plastic bags, polystyrene, etc.) in the environment and do not leave them in children hands, as they can be dangerous.

Anyway, do not throw away the packaging before verifying the correct operation of the device, as in case of giving it back to supplier, the device has to be put in its own original packaging.

All the different element of the packaging, have to be handled following the local Directive regarding the disposal of the waste.

If it necessary to dispose the trolley KART, at the end of its useful life, or for other reasons, it is important to consider that it has to be disposed following the directions of the Directives that regulate the medical devices, for which the same Directives require to reutilization/recycle the parts of the device, to avoid damages to the environment and consequently for the people health.

Ignoring the Directives regarding the disposal of the waste, please contact the qualified local authorities.

## 6. MAINTENANCE / CLEANING DIRECTIONS

KART doesn't need any preventive maintenance, but only some cleaning operations.

Do not use any solvent to clean the appliance, but use only a wet cloth.

## 7. GUARANTEE

---

The manufacturer guarantees the good quality of the parts of the device, assuring, during the warranty period, to repair or replace as soon as possible, defected parts, if it depends on the manufacturer itself or on the force Majeure.

The warranty is valid only if the device is used for the purpose for which it was designed.

The warranty of the device is 24 months from its delivery date, even if the device has not put in service.

Parts acquired from other manufacturers have the same warranty that is given to the manufacturer of the device.

Transport costs of devices repaired under warranty, round trip, are at customers' charge.

The expiry date of warranty has not modified or extended in any case.
