Description

TRUWAX STERILE SURGICAL BONEVAX 2.5 g - box of 12

Equivalent Ethicon brand: BONE WAX

Truwax is a sterile bone wax used to control bleeding from bone surfaces during surgical procedures by providing hemostasis from bone injuries and cuts. It works like a mechanical barrier, through a tamponade effect, it blocks pores and channels of cut or damaged bone.

Made from sterile mixture of beeswax paraffin wax and isopropyl palmitate. Materials ensure excellent malleability.

Multilingual manual and box: GB, FR, IT, ES, PT, DE, GR.

MDR Certified
