## Description

Rubber ring pessary Ø 55 mm

Used for a first and second degree prolapse. Autoclavable at 121°C only before first use. Single patient. Individually packed in a cardboard box.

Multilingual box and instructions: GB, FR, IT, ES, PT, SI, RO, GR.

Pessary is used to support uterine prolapse in women, including cystocele and rectocele, as well as stress urinary incontinence. This medical device provides instant relief, allowing the patient to resume her normal daily activities immediately. The device must be prescribed and positioned by a qualified specialised practitioner.

Latex free. Silicone material ensures softness and flexibility.
