## Description

### Alfa-fix LED - trolley with battery

Three LED light sources with coinciding lenses and polycarbonate protection shield. Thanks to three independent light sources, shadows can be reduced and provide a deep cylindrical light with highly reduced heat irradiation. Each LED integrates a resistance to ensure the continuous operation of the lamp even in the rare case of a LED fault.

### Design

The new design makes the lamp extremely easy to use and manoeuvre, with an additional rotation of the reflector.

### Touch control

The light intensity can be adjusted through the touch button, a smooth touch of the control allows to regulate the light intensity from 4% to 100%.

### Interchangeable plugs

The transformer, integrated in the plug for a lighter and smooth movements of the arm structure, is supplied with interchangeable plugs (UK, US, EU).

### Battery kit included

QR manual: GB, FR, IT, ES, PT.

Made in Italy.
