Description

GERMOXID MOUTHWASH - with chlorhexidine - 200 ml

Germoxid mouthwash is characterized by its formulation with Chlorhexidine 0.2% designed to prevent plaque buildup and related inflammation such as gingivitis. Enriched with Aloe vera extracts with natural soothing and refreshing actions. Lack of alcohol avoids irritant effects on gums and unpleasant burning sensations. It is suitable for the mouth hygiene after dentistry and for people who carry prosthesis or orthodontic appliances.

Made in Italy.
