## Description

### INSECT BITE HELPER

Compact and portable device suitable for quick relieving itching, swelling or inflammation caused by insect bites or stings. During application, heat is applied to the treatment area; this can have a positive effect on the healing process.

- dual-switch over-temperature protection design, prevents skin burns due to high temperature
- two modes with three temperature grades each.

The set grade can be automatically saved

- indicator lights for temperature level
- low-battery indication
- skin friendly and chemical free

Supplied with USB cable and user manual in GB, FR, IT, ES, DE, PL.
