- Curos™ Stopper™ caps
- Connector: open female Luer
- Sale formats: 50 strips of 5
- box of 250

3M™ CUROS™ DISINFECTING CAPS

3M™ Curos caps disinfect in 1 minute and protect needle connectors and Luer to help reducing the risk of contaminants from entering the catheter post-insertion, for up to 7 days if not removed.

Caps twist on easily and stay securely in place, preventing contained alcohol (70% isopropyl alcohol) from spreading within patient's circulatory system.

For single use only.

Suitable for needle-free connectors (34980), male Luer (34981) and open female Luer (34982).
