Description

OMRON COMPLETE B.P. AND ECG MONITOR HEM-7530T-E3

The clinically validated OMRON Complete is an accurate 2-in-1 smart blood pressure monitor with single-lead ECG recording that delivers easy, instant and accurate results.
It can measure blood pressure only, ECG only, or B.P. and ECG simultaneously.
Quickly screen for a range of heart conditions at once, including: AFib, tachycardia, bradycardia, and hypertension.
In combination with a smartphone (not included), it records, stores, and transfers results.
Omron Complete can be connected to OMRON Connect App to consult results.
The device is intended for use by healthcare professionals, patients with known or suspected heart conditions, and health-conscious individuals in a general household situation.

Supplied with easy cuff 22-42 cm, 4xAA batteries, storage case, and multilingual manual in GB, FR, IT, ES, DE, NL, DK, SE, PL, RU.

Technical Specifications

Device
BP display: LCD digital display
Operating mode: continuous operation
Power supply: 4 AA alkaline batteries, 1.5 V
Battery life: approx. 300 measurements
Size - weight: 232x123xh 98 mm - 550 g
Cuff size: 145x594 mm, (air tube: 750 mm)
Safety: Type BF, Type CF applied part
Protection: IP21, internally powered ME equipment

ECG
Lead: single lead
Input dynamic range: 10mV peak-to-peak
Frequency response: 0.67 Hz to 40 Hz
CMRR: >60 dB
Input impedance: >10 MO

Blood pressure measurement
Method: oscillometric
Measurement range: pressure: 0-299 mmHg; ± 3 mmHg / pulse rate: 40-180 beats/min.; $\pm 5\%$
Inflation: automatic by electric pump
Deflation: automatic pressure release valve
Internal memory: 90 readings
