Description

OMRON M4 CONNECT - AFIB HEM-7196T1-FLE

With Intelli Wrap Cuff 22-42 cm. It monitors hypertension at home and automatically updates and transfers results to smartphones by Bluetooth on OMRON App. Clinically validated (To verify validations, please see www.dablededucational.org) Intellisense technology Irregular heartbeats detector Cuff wrap guide Pre-formed cuff: Intelli wrap - Size: 22-42 cm Memory measurement x user: 60x2 Guest mode Body movement detection Easy high blood pressure colour indicator (Signal in case the values exceed the E.H.S. standards for domiciliary auto-measurements (85 systolic pressure and/or 135 diastolic pressure)) Hypertension Average last 3 measurements (Average of 3 last measurements made within 10 min) AFib detection in each measurement Measurements comparison versus prior readings App/Bluetooth Connection The Intellisense™ technology ensures that the right inflation pressure is automatically detected. It detects irregular pulses and automatically decides if the measurement result is reliable or needs to be repeated. Only accurate results are displayed.

Technical Specifications

Measuring method: oscillometric
Measuring range: Pressure: 0 mmHg to 299 mmHg ± 3 mmHg Pulse: 40 to 180 min ± 5% of display reading
Memory (with date and time): 60x2 user Inflation: fuzzy logic controlled by electric pump Deflation: automatic pressure release valve Rating: 6VCC 4W Power source: 4 "AA" batteries 1.5 V Battery life (N° of measurements): 900 Protection against electric shock: internally powered ME equipment (when using batteries) Weight (console+cuff) without batteries: 350+163 g Size: 98x165x70 mm Cuff materials: nylon and polyester Measurable circumference (cm): 22-42 (arm)
