GIMACARE MULTIPARAMETER MONITOR - 6 PARAMETERS

• **24128 GIMACARE MULTI-PARAMETER MONITOR**
- 6 parameters - GB, FR, IT, ES, PT, DE, RO, GR
6 in 1 multiparameter diagnostic device for the periodic self-monitoring of various risk factors: blood glucose, β-ketone, lactate, cholesterol, uric acid and hemoglobin.
Ideal for homecare use. Results in 5 minutes.
Automatic strip identification system
Automatic strip recognition technology in one meter as guide to the right test
Bluetooth connected device
Data transmission thanks to Bluetooth connection with the development of miniaturization and wireless communication.
Free connection to ProCheck App
3 coloured indication lights
1 colour indicator for correct strip insertion
- blue: strip guiding light
2 different colour indicators to understand whether results are low, high or in range
- green: within target range
- red: out of target range (low or high)
Additional features:
- automatic quality control
- before/after meal presettable
- strip ejector
- strip expiry date reminder
- auto sample loading detection
- auto electrode insertion detection
Supplied with lancing device, 10 sterile lancets, user guide, carrying case and user manual in GB, FR, IT, ES, PT, DE, RO, GR.
LCD backlit display

ANALYTICON URILYZER® 500 PRO URINE ANALYZER

• **24050 URILYZER® 500 PRO URINE ANALYZER with printer**
Semi-automated and compact urine test strip analyzer with continuous loading function. The high throughput of up to 500 tests/hour in combination with state-of-the-art operator and data management functions provide the ideal system for mid-sized to bigger laboratories and hospitals. It also provides enhanced QC management and connectivity capabilities to meet the growing demands for compliance management and data capture.
Available software in GB, FR, IT, ES, DE, PL, HU, RO, SE, RU.
- external barcode reader
- built-in thermal printer with automatic printout or transfer of results
- up to 500 tests/hour due to the possibility of testing urine strips continuously
- implemented protocols: LIS2 (ASTM+) and HL7
- customization of the QC protocol according to regulatory requirements and laboratory standards.
Moreover, the system offers high quality and efficiency, high level of customization with flexible testing and reporting options.

MADE IN HUNGARY

Touch screen intuitive interface

24050

Automatic start of measurement by strip detection

TECHNICAL SPECIFICATIONS

Measuring method:	reflectance photometer with 4 discrete wavelengths 505, 530, 620, 660 nm
Parameters:	Bilirubin, Urobilinogen, Ketones, Ascorbic Acid, Glucose, Protein (Albumin), Blood (Hemoglobin), pH, Nitrite, Leucocytes, Specific Gravity
Measurements:	up to 500 tests/hour
Data storage:	patient database: 5.000 tests / QC database: 5.000 tests
Display:	5.7" LCD VGA capacitive touchscreen
Interfaces:	serial RS232, USB Type A, USB Type B, PS2 (external keyboard, barcode reader), Ethernet
Power supply:	12V DC/5A
Size- weight:	300x300xh 180 mm - 6.5 kg

## ■ BD VENFLON™ PRO SAFETY I.V CATHETERS - STERILE

BD Venflon™ Pro Safety Needle Protected IV Cannula is a ported, passive safety peripheral IV catheter (PIVC) designed to help minimise the risk of unanticipated blood spatter and needlestick injuries (NSIs).

BD Vialon™ catheter material (polyurethane, radiopaque and biocompatible) softens in the vein up to 70%, enabling longer dwell times, minimizing restarts and reducing the risk of mechanical phlebitis.

Ergonomic design to accommodate a variety of techniques.

Back-cut needle design to offer optimal skin and vein penetration. **Flexible wings** help provide comfortable securement for the patient. **"Snap" cap** helps prevent port being accidentally opened. **Removable white vent cap**

■ SILICONE SELF-ADHERING MALE EXTERNAL CATHETERS

Male external catheter with tray made of 100% ultrathin silicone, that eliminates risk of latex related skin irritations. This material has the highest water vapor permeability. Soft, breathable and odour free silicone provides greater patient's comfort and healthier skin with less risk of maceration. Adhesive band is part of the catheter sheath: it facilitates the application and offers patient's safety and extended wearing period. Integrated tray ensures that adhesive ends do not stick together. Its transparency allows easy skin inspection.

Security
Kink-resistant silicone funnel helps to ensure continuous urine flow and secured connection to all major types of urine collectors.

Ease of use
One-piece system easy to apply and to remove, secured to the skin with an acrylic adhesive.

A perfect fit for most patients
It has a standard-length sheath with strong adhesive and is available in five different sizes.
Individually packed in a plastic bag in a box of 30.

Integrated tray **100% SILICONE** *Unrolled catheter*

CUFFED AND UNCUFFED TRACHEOSTOMY TUBES
CUFFED AND UNCUFFED TRACHEOSTOMY TUBES
Curve tubes designed to rapidly provide an airway within seconds during an emergency by inserting them into a tracheostomy stoma, a hole created in the neck and windpipe. The hollow tube whether with or without cuff, is directly placed into the trachea through a surgical incision, using a wire-guided progressive dilation technique.
- tube is made of medical grade, non-toxic, clear and kink-resistant PVC to protect delicate mucosal tissue
- smooth rounded obturator's tip reduces trauma during insertion
- neck plate with printed size for easy identification
- standard connector
- radio-opaque line helps to determine exact tube location
Tube includes: cuff (cuffed only), inflation line, valve, pilot balloon (cuffed only), obturator, neck plate, connector and tube ties. Sterile, single patient. Class IIa. DEHP-free. Made with no natural rubber or latex.
Cuffed tracheostomy tubes additional features
- high-volume low-pressure cuff provides an effective low-pressure seal
- soft, thin-walled cuff ensures effective sealing and atraumatic intubation and extubation
- efficient one-way valve for cuff inflation and deflation

PATIENT TRANSFER CHAIRS

Push handle with brake

- **44840 ISCHIA PATIENT TRANSFER CHAIR - blue**
- **44842 ISCHIA PATIENT TRANSFER CHAIR - any colour**

Transfer chair for patient transport within hospital or community environment, suited for admission, accident & emergency department (A&E) and ward transfer purposes.
It is also well suited for external transfers or when there is a need to
jump over obstacles or uneven ground smoothly.
Solid front wheels with Ø 30 cm and 2 swivelling rear castors Ø 12.5 cm. The carer can easily move the chair with patient on board, even in extremely small spaces.
With footrest fully touching the ground and backrest up, it enables the patient to safely perform any activities involving sitting or standing up.
Armrests can be flipped back to allow side access.
The backrest can be reclined via gas spring control creating a seat tilt (-33°/+6°) that allows for a better position to rest and relax.
Equipped with pushing handle, back pocket and pedal for the activation of "central braking system" and "steering-lock system" on the two rear wheels. Max weight capacity 160 kg. Class I M fire resistant.
AVAILABLE IN 24 COLOURS

Weight: 42 kg
Seat size: 470x545 mm
Footrest size: 243x380 mm

HYDRAULIC TRANSFER CHAIR

- **43430 HYDRAULIC PATIENT TRANSFER CHAIR**

Hydraulic transfer chair made of steel, ideal for transferring the patient from bed to toilet, shower or other sites.
It includes 3 interchangeable seat panels:
- fixed toilet panel that can be used with or without a removable toilet pan
- removable plastic shower panel
- removable soft cushion seat panel
Shower and soft cushion seat panels can be disassembled whenever necessary to accommodate varied conditions,
leaving the area more hygienic and cleaner.
- 180° easy opening and closing, flexible for movement
- hydraulic lifting adjustment up to 15 cm
- load capacity: 125 kg
- front swiveling castors with brake, one-way rear castors which prevents the machine from drifting due to unstable center of gravity when used by paralyzed people
Packing size: 79x63x33 cm.
Seat size: 48x37xh 42-57cm

SUNLIGHT MINIOMNI™ ULTRASOUND-BASED OSTEOPOROSIS SCREENING

• 56800 SUNLIGHT MINIOMNI™ ULTRASOUND-BASED OSTEOPOROSIS SCREENING with CM probe + MINIOMNI software

The Sunlight MiniOmni™ bone sonometer provides an exceptionally affordable, professional solution for early assessment of osteoporosis. It enables reliable, accurate, non-invasive and safe monitoring of bone density. Ultra-compact size and weight, intuitive ease of use and convenient USB-port connectivity to Windows™ 10 and above PCs and laptops. It's well-suited for use in any physician office or medical clinic, pharmacy, annual checkup centres or other retail venue.

Proven accuracy
MiniOmni™ is based on Omnipath™ quantitative ultrasound technology. This technology detects the speed of ultrasonic waves along the axis of maximum force of the bone, eliminating soft tissue effects and allowing for more precise results. It has been proven in thousands of installations worldwide.

Proven safety
Non-invasive and radiation free

Fast results
- no warm-up and calibration
- immediate audio confirmation of correct measurement
- screen a patient in just few minutes
- easy and fast to learn with built-in training module

Easily interpreted report in A4/letter format
- multiple ethnic reference databases for accurate results: Caucasian, Asian, Chinese, North and Latin American, European
- clear, colour-coded reports, easy to read and interpret
- patient data and measurement history
- gender and age (years 0-90) are taken into account
- WHO-compliant T-scores and Z-scores

Highly affordable, with fast ROI
- zero cost of operation: no ongoing maintenance, no disposables, no calibration

Optional Multi-Site licence (56805) for multiple skeletal measurement
It can measure multiple skeletal sites: radius, phalanx, tibia and metatarsal. Its flexibility improves the identification of isolated points of osteoporosis, as well as being able to test patients in whom the evaluation of certain skeletal sites is impossible.

- maximum examiner comfort, no need to bend over
- maximum patient convenience, shoes can stay on
- ideal for immobile patients
- each site is proven to be correlated with osteoporosis

LUMEX LED LIGHT - 45,000 LUX

• 49045 LUMEX LED LIGHT with handle - trolley
Compact LED light featuring a modern design combined with innovative lighting technology and excellent manoeuvrability.
The light is significantly more pleasant to the eyes and colours are rendered accurately.
Ideal for examinations and minor surgery procedures at doctor's office, clinics and hospitals.
Ergonomic and hygienic design with removable and sterilizable handle which allows movements.

Control system to manage 5 levels of brightness

Directional handle

49045

| TECHNICAL SPECIFICATIONS	
Light Intensity at 50/100 cm:	45,000 / 18,000 lux
Control System:	5 levels of light-touch brightness control and on/off
Lamphead:	Ø 120 mm, 28 mm thickness
Diameter of illuminated field:	180-300 mm at 50-100 cm distance
Light source:	6 LEDs
LED life:	50,000 hours
Colour temperature:	3500-4500 K

Power supply:	100-240V, 50/60 MHz
Power consumption:	6W
Protection:	Class II

INFANT PHOTOTHERAPY LIGHT

• 31192 LED INFANT PHOTOTHERAPY LIGHT - trolley
LED infant phototherapy light ideal for treating neonatal jaundice which consists in skin yellowing as a result of elevated levels of bilirubin in the blood.
If untreated, severe jaundice can lead to brain damage, hearing loss and even death.
Blue light irradiation (phototherapy) is a simple, effective and quick treatment for hyperbilirubinemia.
It lowers bilirubin levels through a process called photo-oxidation which adds oxygen to bilirubin, facilitating its dissolution in water.

31192

GIMALED 29 LED LIGHTS - 160,000 LUX

GimaLed light with **29 LEDs**: sophisticated design that combines excellent lighting features with exceptional mechanical characteristics for extra soft and stable movement.
Deep light: 9 fixed LEDs for central illumination and 20 LEDs (4 modules of 5 LEDs each) with electrical light field Ø control positioned laterally.
Shadowless light: 29 LEDs arranged on a round surface grant the best light emitting surface and avoid any shadow effect caused by any interposition between light beams and lighted surface.
Bright light: two colour selections, 4,500 and 5,000°K made of white LEDs only, to avoid coloured shadow effect.
- collimated light beams for a working distance from 70 to 140 cm
- high colour rendering index (CRI) 96, R9>90
- optimisation of LED thermal management by heat dissipation convection to avoid illuminance reduction during surgery
- indirect light provides cool, deep illumination to avoid surgeon's eyes fatigue and dazzle effect. Parabolas reflect the full spectrum of light emitted by each LED in a point-like manner, without dispersion
- light always in focus: different parabolas design allow to adjust electronically the Ø of the field
- the EndoLed function provides comfortable illumination during endoscopic interventions. It illuminates a single module whose light intensity and colour temperature are individually adjustable
- Zener to grant light even in the event of one LED failure
- low consumption, high efficiency
Electronic control of light adjustment, colour temperature, light field Ø and endoscopy light.

Small overall dimensions of cupola, perfectly balanced, ensure stable adjustment.

Ergonomic grip on the cupola and on the protective screen to hold and move the lamp

Light field diameter adjustment through touch sensitive handle or touch pad at the side of the cupola

GERATHERM® CLASSIC AND CLASSIC+ THERMOMETERS

Mercury-free glass thermometers developed by Geratherm® Medical AG, containing a patented liquid alloy consisting of gallium, indium and tin-called Galinstan.
Galinstan is completely non-toxic and environment-friendly. They are ideal for determining body temperature of people of all ages, suitable for rectal, oral or axillary measurement.
Each thermometer is calibrated to guarantee measurement accuracy.
- measuring range: 35.5°C to 42°C
- sustainable compared to digital thermometers
- easy to disinfect thanks to the closed glass body, ideal for allergy sufferers
- reset tool included

"Easy flip" shaking aid
Thermometers include a reset tool "easy flip" which makes it easier to lead back the measuring liquid of the thermometers by considerably less effort when shaking down.

Storage case with enlargement function (25532-33 only)
Special storage case with magnifying glass to help people read results more clearly.

Supplied with individual box protective case, reset tool, storage case with magnifying lens (25532-33 only).and multilingual manual. Thermometers are sold in multilingual display of 24 pieces.

INSECT BITE HELPER

• 24394 INSECT BITE HELPER
Compact and portable device suitable for quick relieving itching, swelling or inflammation caused by insect bites or stings. During application, heat is applied to the treatment area; this can have a positive effect on the healing process.

- dual-switch over-temperature protection design, prevents skin burns due to high temperature
- two modes with three temperature grades each. The set grade can be automatically saved
- indicator lights for temperature level
- low-battery indication
- skin friendly and chemical free
Supplied with USB cable and user manual in GB, FR, IT, ES, DE, PL.

RIESTER SUPERVU AND SUPERVU HiRES GALILEAN BINOCULAR LOUPES

SUPERVU GALILEAN BINOCULAR LOUPES
They offer 2.0, 2.5 or 3.0 X magnification which allows greater distance between the user and the patient. They provide a carefully calculated blend of comfort, clarity and field of view.
- excellent optical features with respect to the field view (± 10%)
- movement whilst maintaining focal clarity is possible due to superior depth of field.
The lightweight aluminium bar with individual pupillary adjustment provides the mounted loupes with stability and optimal focal alignment, eliminating headache and eyestrain
- ideal for ocular and dental examinations as well as plastic surgery and veterinary professionals.

30965+ 30950-57
99 g (including frame).

SUPERVU HiRES GALILEAN BINOCULAR LOUPES
They provide a high-resolution loupe, which far surpasses any previous standards. This 5-element loupe offers triple magnification with a 15% increased field of view, a bright image and a visually flat field from edge to edge.
- excellent optical features with respect to the field view (± 10%)
- 3.0 X magnification
- excellent distinction, stunning performance as well as great looks
- ideal for most fields of surgery, surgical assistants as well as ophthalmologists

ALLERGY RELIEVER

Transparent probe cover   *Nasal probes*   *Angle adjustment button*   CE 0197   *Protective cover*

LED chips   *Nose clamp*   *ON/OFF button*

• 28107 ALLERGIC RHINITIS RELIEVER
This device offers an innovative and effective treatment for the relief of symptoms associated with allergic rhinitis like watery eyes, runny nose and sneezing after a few treatments.
Safe, quick, portable and easy to use. It works by using phototherapy of two different wavelengths: one (infrared light) produces small amounts of heat to improve blood flow and circulation and the second wavelength (red light) suppresses the cells that release histamine and lowers inflammation, thereby alleviating the irritating symptoms of allergic rhinitis.
- 3 minute treatment
- wireless nasal probes
- effective relief of allergy symptoms
- red light therapy
- one button operation
Medical Device Class IIa
Supplied with nose clamp, 2xCR 2032 batteries, protective cover and multilingual manual GB, FR, IT, ES, PT, DE, NL, SE, RO, GR.

TECHNICAL SPECIFICATIONS

Treatment system:	dual wavelength phototherapy
Wavelength:	652 nm (red light); 940 nm (infrared light)
Operating time:	3 minutes
Light power:	3-6 mW per nostril
Power supply:	2xCR2032 alkaline batteries, 3V
Size - weight:	70x39x17 mm - 21 g (without batteries)
Classification:	internally powered, Type BF applied part, IP22

MAG 1000 HIGH FREQUENCY MAGNETOTHERAPY - 20 PROGRAMMES

CE 0068

• 28338 MAG 1000 MAGNETOTHERAPY - 2 channels - 20 programmes
Mag 1000 is a high frequency PEMF device particularly recommended for the treatment of pathologies affecting soft tissues like muscles and tendons. It offers 20 pre-set programmes with 3 adjustable intensity levels.
The device generates an electric signal with a carrier frequency of 27 MHz, which is modulated with specific frequencies (from 8 Hz to 640 Hz) and therefore is able to soothe the anatomical site affected by pain. It is projected and indicated for healing, rehabilitation and functional recovery treatments of many pathologies. Continuous operating mode. It is intended for both professional and homecare use.
Size: 153x91x38 mm
Supplied with elastic therapeutic belt, carrying bag, rechargeable battery pack 2,300mAh, battery charger, user manual in GB, FR, IT, ES, DE.
Medical Device Class IIa.

28338

• 28432 KURA TENS - 6 programmes - IT, DK, LT, FI, HU, RO, HR, SI, GR, BG
Dual channel electrotherapeutic device with massage feature ideal for pain relief associated with aching muscles due to physical exertion or regular work and domestic activities. It is also aimed at providing symptomatic relief and managing chronic and intractable pain, as well as pain relief related to arthritis. Medical Device Class II a.
- 2 channels with 4 electrode pads
- 15 intensities per channel
- 6 main modes (composite, thump, press, slap, acupuncture, muscular relaxation)
- 24 sub-modes (4 for each main mode)
- large LCD with blue backlight.
Supplied with 2 wires (120 cm), 4 electrode pads (50x50 mm) and multilingual manual (see above).

■ OMRON COMPLETE BLOOD PRESSURE AND ECG MONITOR

• **49885 OMRON COMPLETE B.P. AND ECG MONITOR HEM-7530T-E3**
The clinically validated OMRON Complete is an accurate 2-in-1 smart blood pressure monitor with single lead ECG recording that delivers easy, instant and accurate results. It can measure blood pressure only, ECG only or B.P. and ECG simultaneously. Quickly screen for a range of heart conditions at once, including: AFib, tachycardia, bradycardia and hypertension. In combination with a smartphone (not included), it records, stores and transfers results. Omron Complete can be connected to OMRON connect App to consult results.
The device is intended for use by healthcare professionals, patients with known or suspected heart conditions and health-conscious individuals in a general household situation.
Supplied with easy cuff 22-42 cm, 4xAA batteries, storage case and multilingual manual in GB, FR, IT, ES, DE, NL, DK, SE, PL, RU.

ECG		Deflation:	automatic pressure release valve
Lead:	single lead	Internal memory:	90 readings

■ OMRON PROFESSIONAL BLOOD PRESSURE MONITOR

• **49890 OMRON PROFESSIONAL B.P. MONITOR HBP-1120-E**
The HBP-1120 is designed for use in professional settings and is clinically proven to produce fast and reliable results. Irregular heartbeats detection. It is intended for intensive daily use by healthcare professional in hospitals and medical facilities.
Zero Indicator function shows that the device is ready for next measurement. It works with AC adaptor or batteries. Class IIa.
Supplied with cuff 22-32 cm, AC adapter, guarantee card and multilingual manual in GB, FR, IT, ES, DE, NL, TR, RU, Arabic.
• **49891 OMRON GS CUFF2 XS 12-18 cm - optional**
• **49892 OMRON GS CUFF2 S 17-22 cm - optional**
• **49893 OMRON GS CUFF2 M 22-32 cm - spare**
• **49894 OMRON GS CUFF2 L 32-42 cm - optional**
• **49895 OMRON GS CUFF2 XL 42-50 cm - optional**

Intelli sense

Large and clear display, easy to read

For adult and pediatric patients from 3 years

TECHNICAL SPECIFICATIONS			
Method:	oscillometric, auscultatory	Power supply:	AC adapter
Measurement range:	pressure: 0-300 mmHg; ±3 mmHg	Input voltage:	AC 100-240 V; 50/60 Hz
	pulse rate: 40-200 beats/min.; ±5%	Output voltage:	DC 6V ± 0.5 V
Operating mode:	continuous operation	Size - weight:	130x120xh 175 mm - 510 g
Display:	7 segment LCD	Protection:	Type BF applied part

■ M5 AND M12 MULTIPARAMETER HOLTER - 5 OR 12 LEADS

- **54299 M5 HOLTER MONITORING SYSTEM - 5 LEADS**
- **54300 M12 HOLTER MONITORING SYSTEM - 12 LEADS**

The wireless multi-parameter holter is a lightweight and compact digital ambulatory ECG recorder. It is intended to display, record, store and transfer ECG data. Data must be checked by qualified medical personnel for analysis and diagnosis. Ideal for routine checkups or self-monitoring of patients in the clinical setting or at home, under healthcare professional supervision.
- compact design Ø 48 mm x 15.2 mm, less than 50g
- high-definition and real-time waveform display
- excellent input impedance, reducing waveform distortion
- data transmission to PC via USB, for efficient analysis
- built-in battery for continuous monitoring (up to 72 hours)
- 24 bit A/D conversion accuracy

Advanced analysis capabilities
Professional ambulatory ECG analysis software, supporting rich statistical analysis. It supports template editing, atrial flutter and fibrillation analysis, HRV analysis, heart rate oscillation analysis, P-wave superposition analysis, ST-segment analysis and other advanced analysis functions.

Easy and fast report output with high accuracy
High analysis accuracy allows to automatically exclude episodes that are too noisy.

Multidimensional application scenarios
- disease diagnosis and prevention
- patient rehabilitation after cardiac surgery
- physical examination
- drug therapy assistance
- screening risk of cerebral stroke

Supplied with ECG lead wire (5 or 10 button type electrodes), 20 disposable adult electrodes, mini HDMI cable, magnetic charging cable, adjustable lanyard, AI-ECG tracker software (54315),
54300

dongle, quick operation guide, manual and box in GB, FR*, IT, ES*, PT*, DE*, UA*, RU* *Manuals can be downloaded on www.gimaitaly.com.
- **54302 ECG LEAD WIRE - 5 ELECTRODES - spare**
- **54303 ECG LEAD WIRE - 10 ELECTRODES (12 LEADS) - spare for 54300**
- **54305 DISPOSABLE ECG ELECTRODES - adult - box of 10 - spare**

TECHNICAL SPECIFICATIONS

Power supply:	rechargeable lithium polymer battery, 3.8Vdc, 400mAh	Input resistance:	≥50MΩ, 10 Hz
		Input signal range:	10mV (p-v)
Charging time:	2 hours	CMRR:	≥120 dB
Battery life:	72 hours, when fully charged	Bandwidth:	0.05~40 Hz
Voltage:	4.5~5.5 V DC	**Heart Rate**	
ECG		Measuring range:	30~250 bpm, ± 2%
Leads:	3/5 leads (54299)		
	3/5/12 leads (54300)	Resolution:	1 bpm

■ DYNAMIC ECG RECORDER 24h, 72h, 168h HOMECARE/PROFESSIONAL

- **54310 DYNAMIC ECG RECORDER 24H**
- **54312 DYNAMIC ECG RECORDER 72H**
- **54313 DYNAMIC ECG RECORDER 168H**

Wearable ECG recorder that is intended to measure, review and store adults' ECG data at home or in healthcare environment. It displays ECG waveform, heart rate, battery power and charging status.
- 0.49" display
- 18 g, ergonomic design with flexible material
- abnormal cardiac rhythm monitoring
- up to 7 days real time ECG monitoring (54313 only)
- data can be transmitted to smartphone via Bluetooth
- free ViHealth App and AI ECG analysis software for real time ECG monitoring (homecare use)
- optional AI ECG tracker software for professional use (54315)

Supplied with charging cable, 10 disposable ECG electrodes (3.5 mm), AI ECG analysis software and multilingual manual in GB, FR, IT, ES, DE.

AI ECG Analysis Software for homecare use
Data management software, which provides the ability to view, store, print and obtain automatic detailed reports of ECG data. It does not have diagnosis function, analysis, editing etc. It is suitable for consumers' personal use at home. PDF reports can be shared with doctors for diagnosis and evaluation.
- **54315 AI ECG TRACKER SOFTWARE for professional use - optional**
AI-ECG tracker is an advanced professional dynamic ECG diagnostic analysis system. It is certified as a software for medical devices and has complete dynamic ECG analysis function, suitable for the evaluation of adult ECG data and detection of arrhythmia-like heart abnormalities.
A cardiologist can edit, modify and confirm the diagnosis. Diagnosis accuracy rate of 95.2%. It supports template editing, atrial flutter and fibrillation analysis, HRV analysis, heart rate oscillation analysis, P-wave superposition analysis, ST-segment analysis and other advanced analysis functions.
- **54314 DISPOSABLE ECG ELECTRODES - spare for 54310, 54312, 54313 - box of 10**

54310
54312
54313

TECHNICAL SPECIFICATIONS (54310, 54312, 54313)

Measuring method:	electrode pads
Lead:	single-lead
Input impedance:	≥10MΩ, 10Hz
CMRR:	≥ 60 dB
Frequency response:	0.67 ~ 40 Hz
Sampling rate:	250 Hz
Sampling accuracy:	16 bit
Memory:	up to 10 measurements
Power supply:	rechargeable lithium battery 3.8V d.c., 240mAh
Battery working time:	168 h
Charging time:	2 hours
Size - Weight:	100×23×10 mm - <20 g (with battery)
Protection:	Type BF, IP22

POCKET ECG MONITOR

• 33236 PCECG-500 POCKET ECG MONITOR - 6/12 LEADS
Portable, lightweight and easy to use ECG monitor.
It provides collection, analysis, storage and transmission of 12-lead ECG information, which in combination with the Glasgow algorithm, ensures complete and immediate analysis. Automatic pacing detection and marking.
- **Glasgow algorithm:** provides an automatic analysis of the acquired ECG waveforms and output measurement values and diagnostic results
- remote reporting and data transfer via E-mail and Wi-Fi transmission
- connection to external printer via Wi-Fi
- HD camera
- more than 24 hours continuous working time
- 4.46" LCD colour touch screen
- automatic and R-R mode

Easy to use, light and portable. It only weighs 250 g, about the size of a smartphone

6/12 lead waveform supports synchronous acquisition and display of 6/12 lead waveform, as well as heart rate detection and indication of poor electrode contact.

STANDARD ACCESSORIES
1 ECG lead wire	U-Disk (type C & USB port)
Disposable adult ECG electrodes (2 sets of 10 pcs)	USB cable
Rechargeable lithium-ion battery	
Multilingual manual GB, FR, IT, ES, PT, DE, PL, GR, RU	

33236

TECHNICAL SPECIFICATION
Method:	peak-peak detection	Time constant:	≥3.2s
Measurement range:	30-300 bpm; ± 1 bpm	Filter:	AC filter 50Hz, 60Hz, Off
Leads:	6/12-lead synchronous acquisition and analysis		EMG (Electromyography) filter 25Hz, 35Hz, 45Hz, Off
Sensitivity:	2.5, 5, 10, 20 mm/Mv; ± 5%		ADS (Anti-Drift System) filter 0.05Hz, 0.32Hz, 0.67Hz
Input impedance:	≥50MΩ (10Hz)		Lowpass filter 75Hz, 100Hz,150Hz, Off
Sampling	rate: 2000 samples/sec	Speed:	5, 6.25, 10, 12.5, 25, 50 mm/s; ±3%
	modes: pre-sampling, real-time sampling, periodic sampling, triggered sampling	Power supply:	built-in rechargeable lithium-ion battery, 3.8V 6000mAh
		Charging time:	8 hours
CMRR:	≥100dB (AC filter on)	Display:	4.46" colour LCD touchscreen, 480x854 pixels resolution
Frequency response:	0.05Hz-150Hz+0.4dB(-3.0dB), 10Hz	Size - weight:	134×74×17 mm - 250 g (including battery)

CARDIONICA™ PORTABLE SINGLE-LEAD ECG

• 33234 CARDIONICA™ 1 CHANNEL ECG with AFib and Bluetooth® 4.0
Medical-grade single-lead ECG, ideal for heart rhythm check and immediate detection of arrhythmias, atrial fibrillation, tachycardia, bradycardia, as well as stroke prevention.
Display with coloured LED indicators and internal memory up-to 100 tests. Noise reduction and motion artefact detection.
One minute test: heart rhythm tracking in one minute, everywhere, with the accuracy of a clinical setting.
Real time ECG: immediate detection of possible heart problems.
Stand alone or via App: applying the adhesive electrode on the chest, it can be used in stand-alone mode or connected to smartphone via Bluetooth.
Free Cardionica App for data sharing: it allows to track personal ECG and to share reports in PDF and EDP format via E-mail, WhatsApp and other Apps.
Certified accuracy: ECG analysis in line with 2020 AF guidelines (ECG, P-wave, RR irregularity), accurate in compliance with international Standard IEC 60601-2-47.
Supplied with 4 reusable electrodes, button battery CR2032 and multilingual manual GB, FR, IT, ES, PT, DE, NL, PL, SE, TR.
Medical Device Class IIa MED 9826.
**• 33235 CARDIODOT REUSABLE ECG ELECTRODE 13x4.5 cm for Cardionica - box of 5**
Each electrode can be applied for about 30 times.

TECHNICAL SPECIFICATION
Lead:	single lead	Sampling rate:	250 S/s	Current capacity:	210 mAh
CMRR:	100 dB 50Hz	Memory:	100 ECG, 1 minute each	Battery:	300 uses or 2 years
Accelerometer:	tri-axial accelerometer	LEDs:	green, orange, red	Protection:	internally powered, type BF
Input impedance:	> 10 MOhm	Power supply:	lithium battery 3V (CR2032)	Size - weight:	57x37x15 mm - 20 g (battery included)

HOT-COLD THERMY GEL

• 28593 HOT-COLD THERMY GEL 14x18 cm - box of 25
• 28594 HOT-COLD THERMY GEL 11x26 cm - box of 25
Non-toxic and reusable hot/cold gel suitable for medical purposes. These gel packs are microwave and boiling water-safe, making them ideal for heat therapy: lumbago, stiff-neck, rheumatism, hypothermia and whenever hot application is required. When placed in the freezer, they are perfect for cold therapy: haematomas, sprains, injuries, hyperthermia and whenever cold application is required. Thermy gel 28594 can be used with a cover (28596) to prevent burns. Class I, Medical Device.
• 28596 COVER WITH FASTENING VELCRO 25.5x12.5 cm for 28594

28593   **28594**   **28594+28596**

Multilingual pack and instructions in: GB, FR, IT, ES, PT, DE, PL, NL, CZ, DK, SE, FI, EE, LT, LV, SK, SI, RO, HU, HR, GR, BG.

BOFAP CARDBOARD BACTERIAL FILTER-MOUTHPIECE FOR SPIROMETERS

BOFAP is a patented viral bacterial filter made of cardboard for spirometry examinations. It combines the convenience of the mouthpiece with the usefulness of the filter. It reduces the risk of cross-contamination among patients and helps to maintain equipment hygiene. A bag of filter material is welded inside the mouthpiece to stop the same quantity of particulates of BV filters. Laboratory tests have verified the ability to catch of up to 99.99% of particulate matter as small as 0.2 microns in size.

BOFAP is fully recyclable and reduces plastic usage by 99%
- reduced risk with lower costs than traditional plastic filters
- filtration efficiency comparable to plastic filters (above 99.99%)
Multilingual instructions: GB, FR, IT, ES, PT, DE, NL, DK, SE, FI, LT, LV, EE, PL, CZ, SK, HU, SI, HR, RO, BG, GR

FILTER EFFICIENCY 99.99%

C€ 0476

Each filter is individually packed and labelled in transparent biodegradable film.

VACUUM SPLINT KIT

• 34690 VACUUM SPLINT KIT
The kit includes vacuum splints for arm, elbow and leg, nylon bag and pump. Made of high quality and durable TPU material, filled with harmless EPS particulate material. Suitable for X-ray and CT scan. The firmness of the splints can be adjusted by pumping air according to the situation. Quick and easy softness and hardness adjustment of the splint.
Packaging size: 50x28x22 cm

Carrying bag and 0.25 l pump included

Full leg (49.1xh 69.5 cm)
Full arm (43.7xh 57.7 cm)
34690
Full elbow (60xh 58.5 cm)

SILENT OXYGEN CONCENTRATOR 5 L

• 34606 SILENT OXYGEN CONCENTRATOR 5 l
Medical grade, silent, small oxygen concentrator for home use. Provide high oxygen concentration through nasal cannula. Work continuously. Supplied with filter, humidifier bottle, nasal cannula and manual GB, IT. Class II, Type BF
- **34599 CYLINDRICAL PAPER FILTER for 34603, 34606 - box of 10**
- **34609 RECTANGULAR PAPER FILTER for 34606 - box of 10**
- **34608 HUMIDIFIER BOTTLE - spare**
- **34167 OXYGEN MASK with tube - pediatric**
- **34166 OXYGEN MASK with tube - adult**
- **34172 OXY GLASSES - nasal cannulas**

SPIRIT PORTABLE OXYGEN CONCENTRATOR 1 LITRE

• 34589 SPIRIT PORTABLE OXYGEN CONCENTRATOR 1 l
Portable and silent oxygen concentrator designed to provide a reliable and efficient source of oxygen. It provides high concentration of oxygen to patients with respiratory disorders. Its compact design and ease of transport is ideal for those who require continuous oxygen therapy anywhere.
- 4 settings for regulating the amount of oxygen delivered
- detachable molecular sieve
- 0.02 s response
- oxygen generation by impulses
- modular lithium battery
- automatic warning system
Supplied with rechargeable lithium-ion battery, AC power supply + DC power cable, 1 set of felt filter (2 pieces), nasal cannula, carrying bag with protective case and adjustable shoulder strap, manual in GB, IT.
• 34592 SPIRIT FILTER - box of 10 (5 sets of 2)

C€ 0123

yuwell
Top manufacturer over 200,000 pcs/years

TECHNICAL SPECIFICATIONS	
Flow range:	3.5 l/min
Oxygen concentration:	96~90%
Output pressure:	150 kPa
Operation noise level:	≤ 55 dBA
Input power:	120 W
Voltage:	AC 100-240 V, 50/60 Hz
Battery:	DC 14.4 V
Power Supply:	DC 12V-24 V
Optimal oxygen concentration:	after 30 min
Size:	22x8xh 22 cm
Packing size:	32x32xh 21 cm
Weight:	2.2 kg (with battery)
Classification:	Class II equipment, type BF applied part, IP20

SHANGRILA 510S EMERGENCY VENTILATOR

8 VENTILATION MODES

56600

CE 0123

Simple operation, compact design, reliable performance
• *waveform display and multi-parameter monitoring*
• *electronically controlled PEEP*
• *direct access to critical settings and patient data*
• *anti-crash design*
• *acoustic and visual alarms*

Safety Guarantee
• *complies with EN1789 standard*
• *IPX4 waterproof level*

• **56600 SHANGRILA 510S EMERGENCY VENTILATOR**
Multi-functional emergency transport ventilator which combines advanced technology and versatile ventilation functions.
Pneumatically driven electronically controlled ventilation system.
The device meets different needs of ventilation, covering various situations.
Suitable for adults, pediatric and infant patients.
Features:
- interface available in: GB, FR, IT, ES, PT
- waveform display and multiparameter monitoring
- 5" LCD display
- acoustic and visual alarms
- direct access to critical settings and patient data
- anti-crash design
- operate with low flow oxygen supply
- pre-use test
- FiO_2 40% to 100% continuously adjustable
- alarm silence
8 ventilation modes:
- A/C: the ventilator delivers only mandatory breaths. When the ventilator detects patient inspiratory effort, it delivers a patient-initiated mandatory (PIM) breathe;
- A/C-V (Volume Control Ventilation): mandatory ventilation with preset respiratory frequency and tidal volume;
- A/C-P (Pressure Control Ventilation): mandatory ventilation with preset respiratory frequency and pressure limit;
- A/C + SIGH: based on A/C mode, the difference is a high tidal volume (1.5 times as set) delivered every 100 breaths;
- SIMV (Synchronized Intermittent Mandatory Ventilation): mixed ventilator mode that allows both mandatory and spontaneous breaths;
- CPAP (Continuous Positive Airway Pressure): ventilator delivers a continuous flow that always maintains positive pressure flow, throughout inspiration phase of ventilation;
- SPONT (spontaneous): inspiration is usually initiated by patient effort. Breaths are initiated via pressure or flow triggering, whichever is currently active;
- Manual: manual breath, inspiratory hold.
