Description:

Pap-Test is a painless examination to detect the presence of any anomalous cells on the cervix. It allows an early diagnosis of uterus neck cancer.
The functional configuration of the kit allows a ready to go operation.

The kit includes: one pair latex glove, one side-screw speculum (medium size), one GIMA brush ball, one Ayre spatula A size (wooden), two slides.

Individually packed in sterile pouch.

Instructions: GB, IT, PT.
